

Herts Valleys Diabetes Education

HERTS VALLEYS DIABETES EDUCATION

Glycaemic Treatment Options including GLP-1 analogues

Interested in the new NICE guidance and how it may effect prescribing recommendations?

We are inviting GPs, Practice Nurses and Pharmacists to attend this upskilling training workshop

The expanding number of new type 2 diabetes agents and how to effectively use them can be challenging

This study afternoon aims to help you meet these challenges and includes:

- Detail on latest glycaemic treatment options including making safe therapy choices
- The latest evidence on prescribing the newer agents including SGLT2s
- Practical advice on starting a GLP-1 analogue

What does the training provide?

- Updates on both oral medications and the latest injectable therapies including GLP1s
- Updated knowledge and skills to enhance patient glycaemic management.

Information
